UX Designer and Coder

IDEA REBEL

MAY 2012 - PRESENT

USER EXPERIENCE DESIGNER

Worked for numerous clients on projects ranging from responsive web experiences, digital interactive kiosks, mobile applications and back-end systems.

Facilitated user research sessions, collaborated in strategic ideation and brainstorming huddles, lead client meetings and reviews, and designed and developed a full range of client facing user experience deliverables.

CRISPIN PORTER + BOGUSKY

FEB 2011 - APR 2011

USER EXPERIENCE DESIGN INTERN

Conducted research on current trends to inform the strategic direction on projects for clients such as American Express and Domino's Pizza.

Created sitemaps, wireframes, physical installation layouts, and user flows for a variety of projects that ranged from a comprehensive financial info-hub to the in-store customer flow for a travel based advertising campaign.

EXAN GROUP

APR 2009 - AUGUST 2009

GRAPHIC AND WEB DESIGNER

Designed numerous pieces of print-based marketing materials for the company's various product platforms.

Also worked on designing mock ups for their new e-Learning platform and subsequently developing this marketing website in HTML/CSS/PHP.

SIMON FRASER UNIVERSITY

APRIL 2008 - AUGUST 2008

MARKETING AND COMMUNICATIONS

Designed and printed various marketing materials for upcoming events and promotions within the Work Integrated Learning department of SFU. Also designed a number of new web properties for Career Services which would be used by the student body.
